growing where we are

Westcoast Chi Alpha family

The AnderSix lick our way through this life together

They keep growing!...as does our love for them

Empty tomb where Jesus rose from the dead

Prayer Mountain, Las Vegas

Lots of stretch breaks driving from Cali to Nevada to Arizona and back!

How we all feel when we finally arrive home from our ministry travels :-)

Westcoast Chi Alpha — testimonies

Debora had the privilege of speaking during the first session of our NCN District Council in Sacramento this year. She delivered the heart of God in honoring our elders and embracing our emerging leaders.

Hundreds of students gathered for our West Coast Winter Conference where they were challenged and commissioned to our mission of world domination thru salvation! The post to the left by our speakers describes it best. The pictures above represent the campuses we are on and the ones we will plant. As we worshiped the Lord with lyrics to “reckless love” He showed one student that Chi Alpha is only on one out of three universities she was accepted into. She received Christ thru that ministry...which is why we intend to be on all universities.

Westcoast Chi Alpha training

Of all the leadership training contexts I've served in over the last six months this was the highlight! Campus ministry leaders and pastors from 14 nations in the Asia Pacific gathered for two weeks in Thailand to be equipped for the work of the ministry. The international impact from training leaders in

this room reaches to hundreds of thousands who will encounter Christ and equip others. Jaime Kemp, a Chi Alpha Campus Missionary in the largest Muslim country in the world, said this,

“The reason we invited Jeremy to train is from experience. He came to help launch Chi Alpha in Indonesia 5 years ago and since then we have planted on 12 Campuses using what he has taught in supernatural ministry and excellent student leadership systems”.

GOD BE PRAISED!!

Westcoast Chi Alpha resourcing

We continue to serve as the interim chi alpha district directors for the Hawaiian Islands. We were able to share in several workshop and main session settings to aim prayers of faith and equip leaders for reaching our Hawaii campuses. We were able to put resources in the hands of 90+ churches and set up the next steps to equip and send laborers!

85 missionaries pledged collectively to send laborers from our current campuses to plant chi alpha on 29 universities across the West Coast. One of the unfolding stories from that day is how Ryan and Kelly Riblelin (NAU) are preparing to send a team to plant UNLV! The picture above is a visioning huddle I hosted with 12 senior pastors in Vegas who are ready to stand with this developing UNLV plant!

Westcoast Chi Alpha strengthening

At our West Coast Winter Conference we felt that God was moving many into deeper consecration. We were able to provide every student with a copy of Killing Kryptonite, by John Bevere. This book is a declaration into the generation to be hearers and doers of the Word no matter what the cost. In addition to many miracles that took place 30 students gave their lives to Christ! I personally had the opportunity to give a call into full-time campus missions; to which 43 students stood and signed up for the post-grad opportunity to occupy every university with His presence!

My friend at Bethel School of Supernatural Ministry brought a team of 30 first year students to minister alongside our Chi Alpha students on 10 campuses. Our staff and students were strengthened in expectation and execution of our divine assignment. 20 students gave their lives to Christ and 20 healings took place as they prayed and ministered the gospel of Christ!

West Coast Chi Alpha prayer

Please pray for our family as we set out for eternal endeavors together in the Muslim world from June 13 to July 18.

Please pray for the nationwide chi alpha movement as we gather together in Arizona so seek God and strengthen hearts and hands for the calling to occupy every campus with His love!

Please pray for the Brooks family as they move from Kentucky to California to train under us for the next year.
